

ECO LIGHT UP

Established 2010

#1 Commercial LED Upgrades Provider

We don't just install LED, We manufacture LED lights

Eco LightUp are noted for their first-class engineering, state-of-the-art thermal management, high-quality components, and systematic quality assurance. We guarantee our work and our products for Five years. Our products are installed and sold Nationwide and our service is second to none.

Upon completion of your upgrade you will be issued with a warranty card and the site is registered with our records database. We stand by our products and our work and ensure that any required replacements or repairs are completed on-site, continuing to deliver our five-star service.

Unlike companies that rely on the manufactures warranty that can result in out of pocket costs and expenses to the business alongside lengthy replacement times, We are the manufacturer, installer and provide the warranty for the work and products directly to our customers.

Strong Foundation, Quality Products

At Eco Light Up we have a strong foundation of knowledge and expertise. For over 9 years we have been in operation, and manufacturing quality energy efficient products for over 7 years.

Reputable & Fully Certified

Eco Light Up is an accredited provider under the VEU. Our products meet VEU and ESS stands, Australian ACMA C-TICK quality and safety standards and all LED upgrades are performed by A-Grade electricians.
